

InCube was established in 2004, offering unique and niche solutions with added value. Today InCube is one of MENA's premier hardware & software solutions provider. It operates in more than 40 countries around the world with more than 1800 companies and institutions, and services devices through InCube to more than 25000 users all over the world.

VOLUME is a warehouse management system, designed to support and optimize warehouse functionality and distribution center management. It facilitates management in their daily planning, organizing, staffing, directing, and controlling the utilization of available resources, to move and store materials into, within, and out of a warehouse, while supporting staff in the performance of material movement and storage in and around a warehouse.
